

## **EVANGELISM AND DISCIPLE-MAKING – CHURCH-PLANTING NETWORK – SOUTHEAST ASIA**

This booming Southeast Asian city has seen a lot of change in its 1,000-year history. Recent urban development has changed the city skyline as many are moving here to study or find work. With its Buddhist and secular influences many are far from Christ and have never heard the life-changing story of Jesus. The Encompass team is being invited to work among educators and business leaders in the city. Serving in partnership with the Encompass team you'll have the opportunity to be the hands, feet, and voice of Jesus to the least reached.

- Equip indigenous leaders to start multiplying culturally appropriate expressions of church.
- Commit to working on a team together with other global workers and indigenous leaders.
- Commit to discovering ministry partners who will pray and support you financially.

### **QUALIFICATIONS**

- Ability to adapt and be flexible in a different culture while maintaining the posture of a learner.
- Ability to learn a new language and communicate at a deeper level in that language.
- Ministry experience that demonstrates a commitment to evangelism and disciple-making.
